CORN!

You are a survivor in search of corn. Your goal is to spot corn.

Before you play: consider not playing.

How to play: While you're on the road, keep a vigilant eye out for crops of corn. Upon spotting one, wait until the car is alongside the crop. Once it is, you must shout "CORN!" in order to gain status within the clan.

If more than one survivor calls "CORN!" at the same time, they must stare at each other and sing the Ironside siren theme from Kill Bill in order to contest their dominance.

If someone calls "CORN!" but there's no corn in sight, they are punished for wasting everyone's time.

After game, commiserate the death of humanity.
